Description

User was taking the Induction Quiz. The link was sent, video watched and questions answered. User scored 70% so was prompted to try again. User tried again and completed all questions but on selecting 'Submit Quiz' for the 2nd time, an error was generated saying 'Quiz locked out for 8 minutes'. Quiz re-tried after 8 minutes had passed and user passed successfully. Is this an error or is there a re-try period that must pass before the user can try again?

About UK HSE Compliance

Inductions are AI-generated using your site details and industry context, designed to meet UK Health & Safety Executive (HSE) requirements.

All inductions cover:

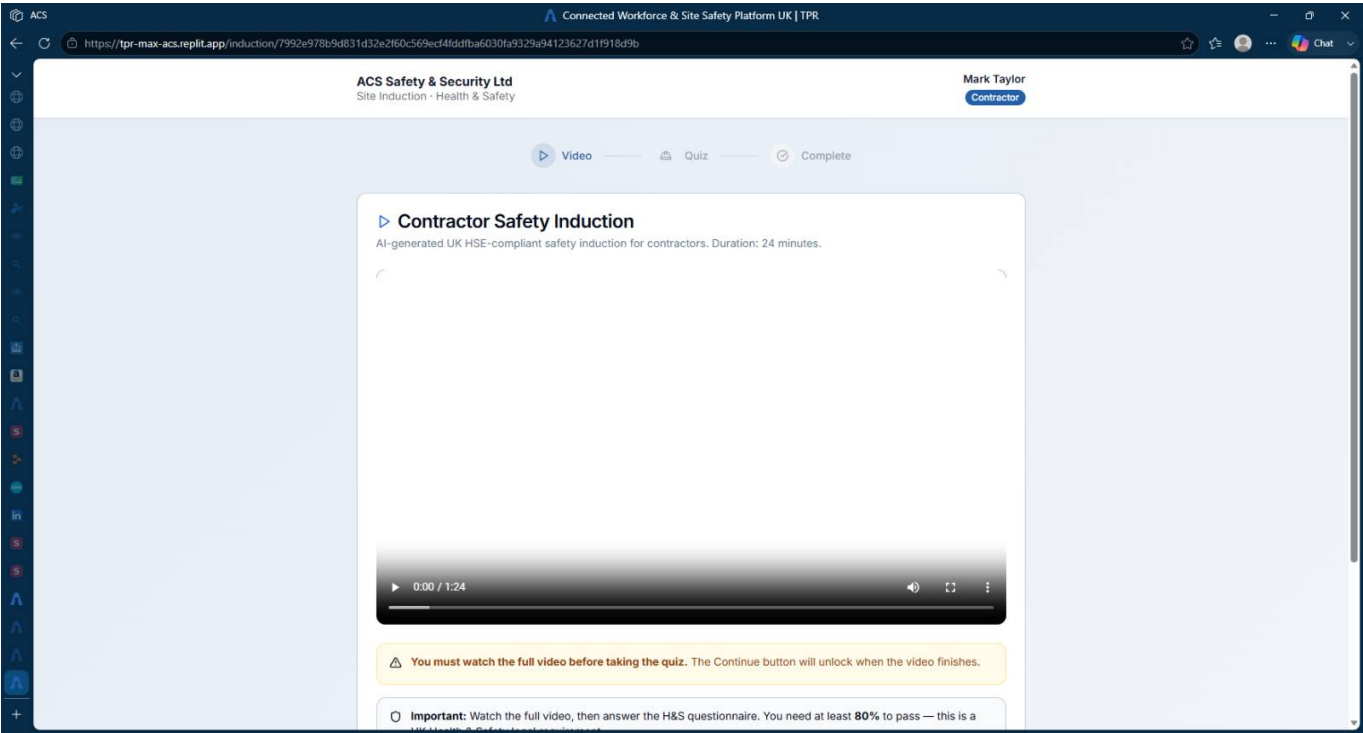

- Welcome & site orientation
- UK legal framework (HSA/MSA 1974)
- Your site-specific PPE requirements
- Hazard identification & control

Plus role-specific:

- Emergency procedures & evacuation
- Incident & near-miss reporting
- Contractor: Permit to Work / CDM 2015
- Staff: DSE, ergonomics, wellbeing

Knowledge assessment: scenario-based questions, 80% pass mark required. All completions are logged for your audit trail.

Question 10 of 10

Question 10 of 10

You are unsure whether a task is safe to proceed with. What is the correct course of action?

☐ A. Carry out the task as instructed — safety is the employer's concern

☒ B. Stop work and raise your concerns with your supervisor before continuing

☐ C. Complete the task as quickly as possible to reduce the risk

☐ D. Ask a colleague if they have done it safely before
