Description

Using the 'Request Documents' feature for a Contractor Worker generated from both selection screens as per screenshots resulted in the same errors;

- 1) Email sent mentions PLI and ELI and H&S Policy not required by the worker only for the Contractor company
- 2) From the email, the 'Upload my documents link works to get to the upload page but then the following errors occur
 - a) On selecting 'Choose' you can browse and select your file but it is not saved.
 - b) The expiry date selection works for day and month but the year gets stuck and only lets you enter 1 number so shows as '0002'

Cannot test this any further due to the above errors and this happened for at least 2 of the different upload sections.
